ALL the PCR tests being done on people all over the world reflect NOTHING about illness, infection, contagion, or transmission

The whole scam just fell apart: COVID test, overwhelming number of false positives

By Jon Rappoport — Bio and Archives—September 1, 2020 American Politics, News, Opinion | Disqus Comments | 11 Comments | Reader Friendly | Subscribe | Email Us

According to The New York Times, potentially 90 percent of those who have tested positive for COVID-19 have such insignificant amounts of the virus present in their bodies that such individuals do not need to isolate nor are they candidates for contact tracing.

Leading public health experts are now concerned that overtesting is responsible for misdiagnosing a huge number of people with harmless amounts of the virus in their systems." (Townhall)

"Most of these people are not likely to be contagious..." warns The Times."

The issue appears to be the ballooning sensitivity of the PCR test

(To read about Jon's mega-collection, The Matrix Revealed, click here.)

Yes, that's what the NY Times is confessing (8/29):

"Some of the nation's leading public health experts are raising a new concern in the endless debate over coronavirus testing in the United States: The standard tests are diagnosing huge numbers of people who may be carrying relatively insignificant amounts of the virus. Most of these people are not likely to be contagious..."

"In three sets of testing data...compiled by officials in Massachusetts, New York and Nevada, up to 90 percent of people testing positive carried barely any virus, a review by The Times found."

Let me break this down for you, because it's a lot worse than the Times admits. The rabbit hole goes much deeper—and I've been reporting on the deeper facts for months.

The issue appears to be the ballooning sensitivity of the PCR test. It's so sensitive that it picks up inconsequential tiny, tiny amounts of virus that couldn't harm a flea—and it calls these amounts "positive."

Therefore, millions of people are labeled "positive/infected" who carry so little virus that no harm would come to them or anyone they come in contact with.

That would be bad enough. But the truth is, the PCR test is not able to produce ANY reliable number that reflects how much virus a person is carrying. A lot, a little, it doesn't matter.

The test has never been validated, in a large-scale study, for the ability to quantify the amount of virus a person is carrying. I've proposed how that study should be done IN THE REAL WORLD, NOT IN THE LAB.

ALL the PCR tests being done on people all over the world reflect NOTHING about illness, infection, contagion, or transmission

You take 1000 people and remove tissue samples from them. A lab puts these samples through its PCR and announces which virus it found in each case and how much virus it found in each case.

It says: "All right, in patients 23, 46, 76, 89, 265 we found a high amount of virus."

That should mean these particular patients are visibly sick. They will have obvious clinical symptoms. Why? Because actual illness requires millions of millions of a virus replicating in the body.

So now we unblind these particular patients with high amounts of virus, according to the PCR. Are they, in fact, sick? Or are they running marathons and swimming five miles a day? Let's see. For real.

THIS VALIDATION OF THE PCR HAS NEVER BEEN DONE.

Therefore, the claim that the PCR can determine how much virus is in a human is completely and utterly unproven. Period.

Therefore, ALL the PCR tests being done on people all over the world reflect NOTHING about illness, infection, contagion, or transmission.

The scam is wall to wall

The scam is wall to wall.

But there's more.

The PCR isn't even testing for a particular virus in the first place. It's using a piece of RNA assumed to be part of a virus. The assumption is unproven.

And finally, as I've been writing and demonstrating for months, there is no evidence that researchers used proper procedure to discover "a new coronavirus that is causing a pandemic."

Therefore, the PCR test, as worthless as it already is, aims to show the presence of a germ that has never been shown to exist.

But let's lock down the planet, destroy economies and untold numbers of lives in the process.

Moleculist · 6d Let's also not forget that CDC just released comorbidity figures on people who supposedly died with Covid (although many not even tested for it). Number 1 comorbidity? Influenza-pneumonia. Yup, the number one thing that finishes off old people is influenza pneumonia and isn't it convenient that it presents exactly the same symptoms that are considered Covid—an enormous scam.

D3F1ANT · 6d We find out more amd more of what a scam Covid is and yet we still wear masks and shut down businesses!

storm142 · 6d Ah yes, the endless testing, if at first you pass, test again, until you don't? What exactly is teh goal, what pathogen might they be implanting? Might the worst be yet to come, in the form of some fatal disease or sterility? Might the virus be much more fragile, until mixed with testing media or vaccine? One thing certain, they want the economy shut down until they can get all the serfs in gulags. Population control is the end game, as said at a taped meeting with Gates, "Vaccines are the way to go." He says he is working on mutated mosquitoes to infect all manner of tracking and other vaccines into people outside! Guess the hundreds of thousands he paralyed or killed in India before he was kicked out and the like number in Afria was not enough for him and his vaccine testing.

Nobody · 5d If the whole world is participating in a hoax, it's already too late to stop them. Means they are ready to make their big move, and clearly that's what's happening. They've been planning this for decades, thousands of people or even millions, and you're kidding yourself if you think they don't have it all worked out. While I may not have the ultimate solution, I'm heavily preparing and ready to leave the city when the time comes.

ButchfromFL · 1 Sep · Edited Jon, there are so many crooked hands in this PlanDemic like Comrade Fuaci, Bix, Gates WHO etc that was done for PURE financial gain. The HDYX pill will now be there to stop this scam depriving these tyrants of their profits. Trump will win in spite of the scam, but watch these bastards will still want MANDATORY vaccines. MAGA !!

Mick · 6d as long as Trump is president, vaccines won't be mandatory at the Federal level. Neither will masks

Henry · 6d Let's not forget the H1N1 , or swine flu, that Obummer failed to do anything about.

Mick · 6d yah but but but but, that was ok, because it was Obama.

Ace · 6d what I think is the cabal of leftists who have been lying about this should be arrested, tried, then executed.

Lucia · 5d We are so stuck in the finding evidence game, that we overlook the fact that these people just dont give a sheit.. what we think or know to be the truth. It is now time to say we might not know everything but it's a scam and has past the scam test with flying colors, so what are we going to do about it. Sitting and waiting for more evidence till you are 300% sure never stopped a serial killer in his tracks...let alone an organisation of eugenicists. Time to take action and bury our cowardice in the face of an overdose of evidence!!!
