By James Howard Kunstler (<https://kunstler.com/clusterfuck-nation/jihad-by-god/>) and All I

*"The post-mortem on the disastrous Biden years will be one of incredulity at how Joe Biden, of all people, was ever placed in charge."* —James White

The fog of war has never been so dense, what with the years-long sustained psy-ops of the US Intel "Community" against the American people . . . the homicidal depredations of the pharma-government complex . . . the Cultural Marxists' weaponization of language against common sense and common de lands of dubious national interest . . . and the relentless mendacity of the sell-out Big Media. . . .

It's a wonder that anybody might venture a coherent thought, or that such a thought might survive transmission from person to person intact, without a sadistic thought such as: the Jews have a right to exist in a place called Israel. This is now up for debate around the world, whereas it had been accepted as self-evident

The military pundit Scott Ritter acted out a spectacular mental melt-down on video (<https://www.youtube.com/watch?v=2MnwX49UDiM>) the other day. Among t suffer defeat . . . "Israel is the greatest threat to peace in the world" . . . "Political Zionism is a rabid dog and must be killed" . . . "I'm glad Hamas is winning" . . .

It's far from clear what Scott's definition of Zionism is, but Dictionary.com says: *"a worldwide Jewish movement that resulted in the establishment and developm homeland."* That's pretty standard across many dictionaries. So, is Scott Ritter calling for the cancellation of Israel? Sounds like it, a little bit. He's not alone. Th **Now, a great multi-nation jihad rises to expel what the Iranians like to call "the Zionist Entity,"** as if it were some scaly thing that slithered out of a UFO

Among the reasons Scott Ritter reviles the Israelis is that they are too weak and incompetent to defend themselves. Their stand-by army of reservists, he says, — and Gaza is the worst sort of urban war-zone. They'll fall down and have heart attacks the first time they try to run a hundred yards (which could be true, **COI non-symptomatic myocarditis present in young men there**). Israeli intel sucks, he says. Israel's sense of superiority, their notion of being the chosen peopl pieces, he advises. Scott's intemperance is... something to behold.

Three weeks ago, the Middle East was on the verge of putting through the Abraham Accords that would have *"normalized"* relations between Israel and severa trade and such. Other Islamic nations in North Africa were expected to join anon. And just before the October 7 Hamas attack, Saudi Arabia was about to hold i

Scott Ritter's proposed initiative goes like this: Call a cease-fire and halt the bombing of Gaza. Israel must commence direct face-to-face negotiations with Harr to begin groundwork toward a two-state solution, that is, the creation of a Palestinian state alongside Israel. **For decades, that two state solution has been h**

One is the practical question of where that Palestinian State would be. The common idea is that it would be the disputed zone called the West Bank (of the Jori of the 1967 Six Day War, as was the Gaza Strip and the Golan Heights on Israel's northern border with Syria. Israel eventually returned the Sinai Peninsula to Gaza has been self-governing since, with internal conflict between its Hamas and Fatah factions. Gaza has been used as a launching site for rocket attacks in Israel, on the other hand, has installed over 600,000 settlers in the West Bank, said to be in violation of international agreements.

The second thorn that hangs up any plausible peace is the Palestinians' overt declarations in the Hamas charter, for instance, that Israel has no right to exist and an intention to "wipe Israel off the map." That is hardly a viable pre-condition for settling this long quarrel. "From the river to the sea, Palestine will be free," goes the Palestinian settlers. Egypt, Jordan, Syria will not take them. Why is that? I'll tell you: because they understand that the bellicose, fractious Palestinians will bring

A nation cannot murder 65000,000 babies, commit adultery as if it was nothing and have homosexuals marching through its streets saying gay and proud, say it loud and then not expect to see total collapse and war in the streets. And now the world has attacked the apple of Gods eye without even considering what God thinks about it. Just a matter of time until wholesale slaughter, chaos, poverty and hopelessness arrive. And well deserved may I add. America was great when it obeyed and served God. Not when it got rich under the trump administration.

No it's not - it comes from India - if I remember right, it comes from India - I made an order through them almost 2 years ago, and my package arrived via Singapore, but most likely came from India - they probably re-wrapped the mail in Singapore so it wouldn't be as likely to get confiscated.

As soon as Islamic terrorists will be reigned in, the government will be freed up to fight "white terrorism" in earnest. Merrick Garland Who has birthright dual citizenship with Isrel, started working on legal framework to fight "white terrorism" after January 6. Whites are the new Palestinians. Gaza strip is being extended to the whole world with total control over food, water, medication/ poison, movements.
